SUMMARY

Highly motivated IT undergraduate with a strong foundation in Software Development and expertise in Emerging Technologies. Proficient in building full-stack applications and passionate about applying principles of Artificial Intelligence, Machine Learning, and DevOps to drive innovative solutions. Eager to contribute technical skills to challenging projects and grow within a professional setting.

EDUCATION

B.SC. (HONS) DEGREE IN INFORMATION TECHNOLOGY & MANAGEMENT — 2023 - Present
Faculty of Information Technology | University of Moratuwa

PROFESSIONAL CERTIFICATE IN ARTIFICIAL INTELLIGENCE — Sep 2025 - Dec 2025
Informatics Institute of Technology (IIT Campus)

ST. SERVATIUS COLLEGE, MATARA — 2018 - 2022

- G. C. E. A/L (2022): BBB Physical Science Stream

PROJECTS

E-Commerce Web Application (Individual Project) — **2025**
Developed an e-commerce web application by implementing secure user login, product management, customer order creation, posting a review, tracking orders. Build admin features for review moderation, user blocking, order management, and managing multiple admin accounts.

- Technologies: MERN Stack
- GitHub Link: Frontend, Backend

Workshop Inventory Management System (Client Project) — **2025**
Designed a full stack system for managing workshop equipment with real time item status tracking. Implemented item check-in/check-out functionality, allowing the system to show whether each item is currently inside or outside the workshop. Designed the database schema, workflows, and APIs to manage items, update statuses, and record item movement history efficiently.

- Technologies: MERN Stack
- Web App: NextGenWorkshop

The Surfer Surf Camp - Responsive Multi-Page Website UI Development (Individual Project) — **2025**
Designed a new, multiple-page, responsive website with React.js and Tailwind CSS to develop the client's online presence. Some key features built using a reusable component-based modular approach.

- Technologies: React.js, Tailwind CSS
- GitHub Link: The_Surfer

Medichive - Healthcare Records Management System (Group Project) — **2024 - 2025**
Developed a mobile application to streamline healthcare data management in collaboration with Zero One Technologies. As a Full Stack Developer, I designed and implemented the doctor's functionalities such as appointment management system, enabling doctors to view, accept/decline, and manage appointments. I also developed features to mark paid appointments as completed, integrated a lab report upload function.

- Technologies: Flutter, Nest.js, PostgreSQL
- GitHub Link: Frontend, Backend

ECOM - Full-Stack E-commerce Platform (Individual Project) **2024 - 2025**

Developed a responsive web application for e-commerce with safe authentication, role-based authorization, cart and checkout functionality, and an admin panel for product and order management. Used security best practices, database design, and UX to implement production-ready shopping experience.

- Technologies: Blade Templates, Laravel 11, MySQL, Bootstrap 5, Tailwind CSS
- GitHub Link: ECOM

StockSync - Smart Warehouse Management System (Group Project) **2023 - 2024**

StockSync was an IoT-based intelligent warehouse management system based on ESP32 microcontrollers that integrated biometric, RFID, and IR sensors for real-time security and monitoring. I designed and implemented the secure Keypad Switch Module and LCD Display for immediate system feedback. I also contributed to the implementation of an efficient physical layout for the Warehouse Structure.

- Technologies: Arduino C++, React.js, Tailwind CSS, Node.js, MySQL, Firebase
- GitHub Link: StockSync

PROFESSIONAL EXPERIENCE

Beddle Hub - Frontend Developer July 2025 - Aug 2025

- Gained experiences in creating responsive, multi-page webapps.

Bank of Ceylon - Banking Assistant (Internship) Jan 2023 - Apr 2023

- Assisted in managing customer savings accounts and day-to-day banking operations.

People's Bank - Banking Assistant (Internship) Apr 2022 - Oct 2022

- Experienced in cashier operations, bank email management, and general banking services, ensuring financial transactions and customer support.

SKILLS

Frontend Development

- React / React Native
- HTML, CSS, JavaScript
- Flutter

Backend Development

- NestJS
- Laravel
- Node.js
- Spring Boot

Programming Languages

- JavaScript
- Java
- Python
- TypeScript
- C
- PHP
- Dart

Cloud and Infrastructure

- AWS
- Kubernetes
- Docker
- Linux

Databases

- PostgreSQL
- MySQL
- MongoDB

Version Control

- GitHub
- Git

EXTRACURRICULAR ACTIVITIES

- Lead of the Logistics Committee, Term 24/25 - IEEE Industry Applications Society, University of Moratuwa
- Volunteered as Logistics Committee Member – IEEE Student Branch, University of Moratuwa. Contributed to organizing: MoraForesight 2.0, Mora UXplore 2.0, MoraXtreme 9.0, IEEExtreme 18.0, and IEEE Open Week 2024.

REFEREES

Mr. Supun Kalana - BSc EngHons (ERE) UoM
Senior Software Engineer
Infor Sri Lanka
